Sample Of Work

Cybersecurity Services

At AllSafe Company, we specialize in providing cutting-edge cybersecurity solutions that encompass both defensive and offensive strategies. Our mission is to protect your organization from every angle, ensuring your operations remain secure and resilient against potential threats.

WebGuard Exclusive Website SOC for Websites (Exclusive to the Middle East):

Introducing WebGuard, our specialized Security Operations Center (SOC) service, exclusively available in the Middle East for website security. WebGuard offers real-time monitoring, threat detection, and incident response tailored specifically for your web assets. This service ensures your website is protected from DDoS attacks, SQL injections, cross-site scripting (XSS), and other web-based threats, making it the premier choice for website security in the region.

Cybersecurity Services

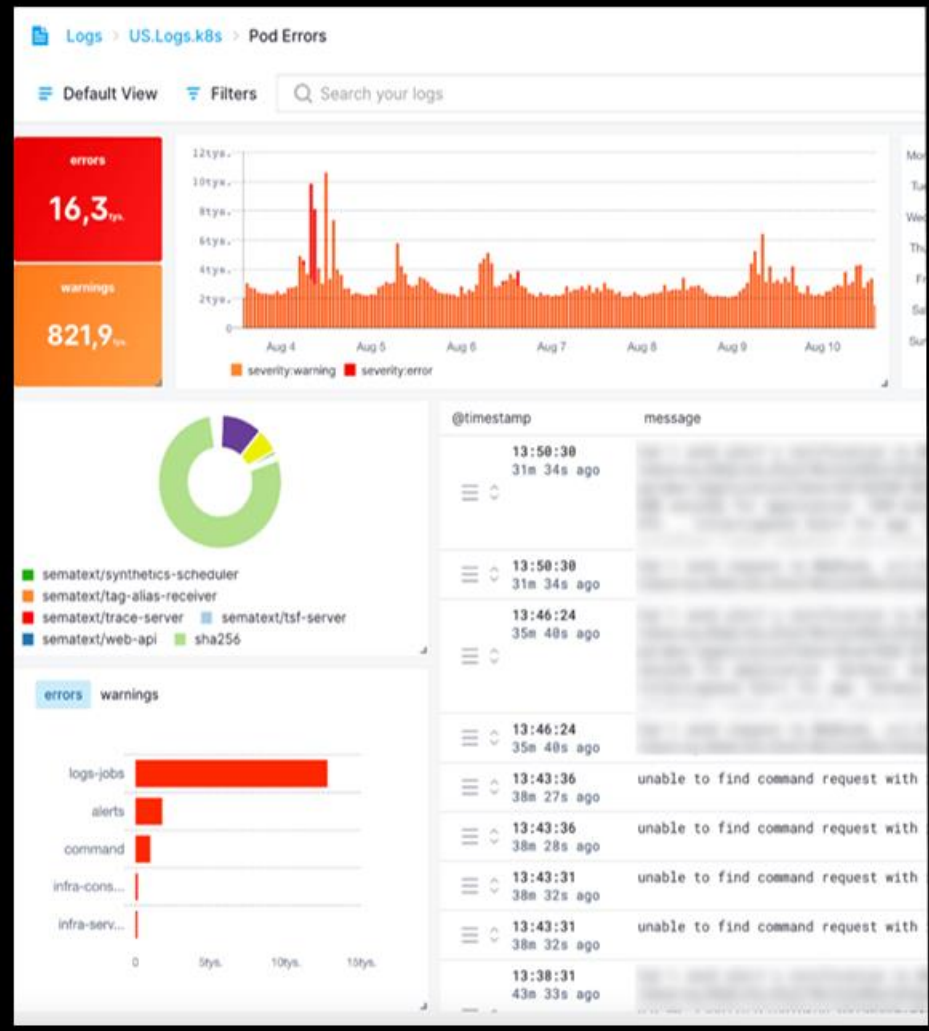
Defensive Security Services:

Security Architecture Design & Implementation:
We design and implement customized security, architectures, integrating advanced firewalls, IDS/IPS, and SIEM systems to safeguard your environment.

24/7 Threat Monitoring & Incident Response:
Our team provides continuous monitoring to detect and neutralize threats in real time. In case of an incident, our rapid response experts are ready to contain and resolve the situation swiftly.

Vulnerability Management & Patching:
We conduct ongoing vulnerability assessments and apply critical patches to keep your systems secure and up to date.

Endpoint Security Solutions:
We deploy advanced protection tools across all devices connected to your network, ensuring comprehensive security against malware, ransomware, and other threats.



Cybersecurity Services

Offensive Security Services:

Network Penetration Testing: We thoroughly examine your network infrastructure to identify potential security gaps, providing insights for stronger protection.

Web Application Testing: We rigorously test your web applications to uncover weaknesses, delivering comprehensive reports to reinforce their security.

Mobile Application Testing: We evaluate your mobile applications across various devices and platforms, ensuring they are robust and secure.

Wireless Penetration Testing: We assess your wireless networks to identify vulnerabilities, ensuring they are well-protected against unauthorized access.

Social Engineering Assessments: We assess your wireless networks to identify We simulate common manipulation tactics to evaluate your organization's resilience and improve your defenses against human-based threats.

Source Code Review: We carefully review your application's codebase, working with your development team to ensure it meets high security standards.

Cybersecurity Services

Awareness Training Services:

Phishing Simulation & Training:
We conduct realistic phishing simulations to assess, your employees' responses and provide targeted training to improve their ability to recognize and avoid phishing attacks.

Cybersecurity Best Practices:
Our sessions cover essential cybersecurity practices, empowering your employees to make informed, security-conscious decisions in their daily work.

Customized Training Programs:
We offer tailored training programs that address your organization's specific needs, ensuring your team is well-prepared to handle the unique cybersecurity challenges of your industry.

h1_analyst_carlos HackerOne triage closed the report and changed the status to ● Duplicate (#1618602).
February 9, 2024, 1:16pm UTC

Hi @allsafeeg_security_team,

Thank you for your report!

Unfortunately, this was submitted previously by another researcher, but we appreciate your work and look forward to additional reports from you.

At this time, we cannot add you to the original report as the report may contain additional information that we cannot share with you. This may include personal information or additional vulnerability information that shouldn't be exposed to other users. Thank you for your understanding.

Have a great day ahead!

Best regards,
@h1_analyst_carlos

to ZZZ, me

Hello AllSafeEg Security Team,

First of all, we would like to thank you for the work you have done as a security researcher, helping us to increase the overall security level of companies like ours.
We are already analyzing the report you have shared with us and we will correct the vulnerability as soon as possible.
Orange group is constantly working to reinforce its ITN security and has made cybersecurity one of its strategic priority.

Regards,

Orange-CERT-CC Team

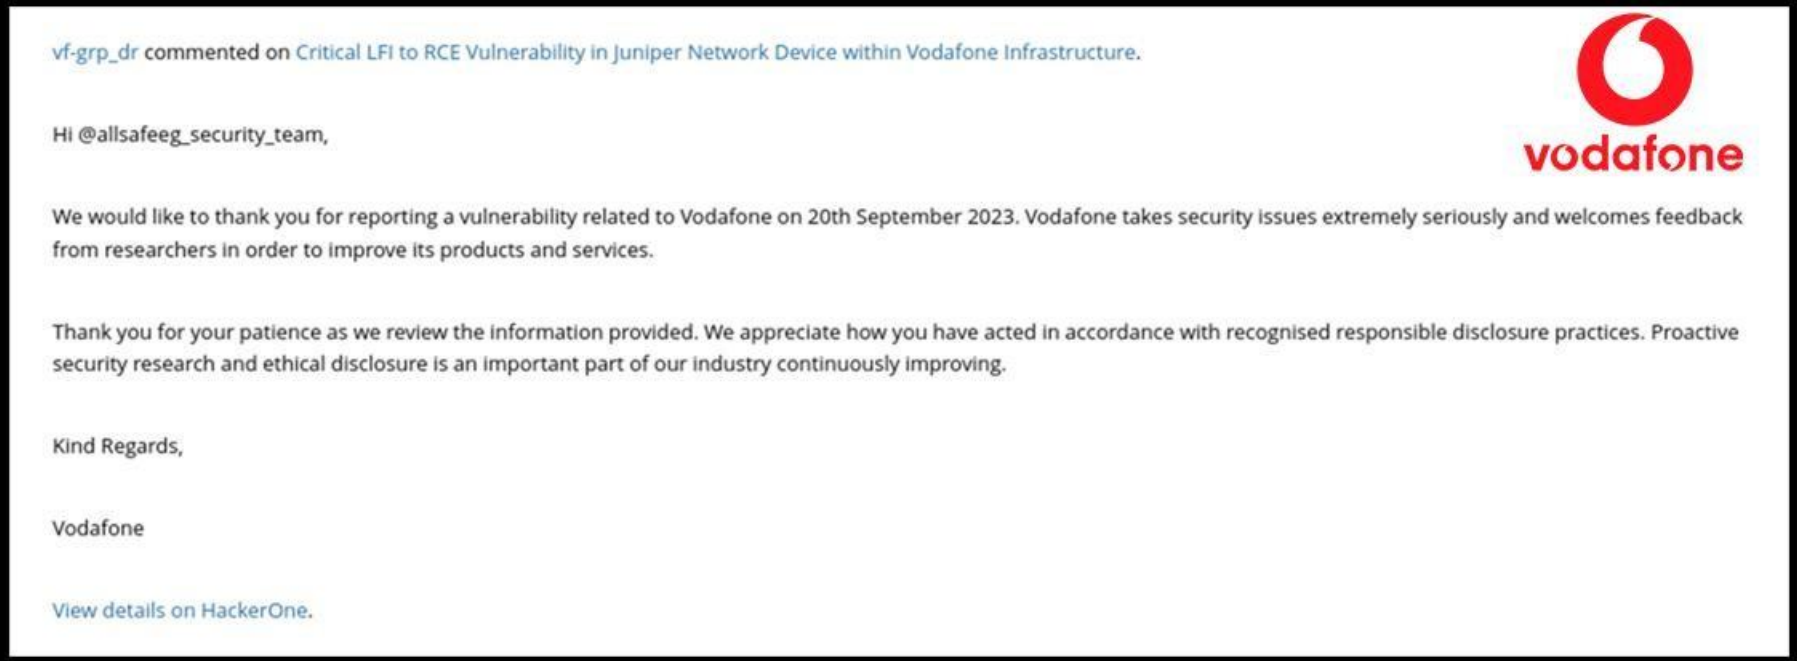
Vodafone



vf-grp_dr commented on Critical LFI to RCE Vulnerability in Juniper Network Device within Vodafone Infrastructure.

vodafone

Hi @allsafeeg_security_team,

We would like to thank you for reporting a vulnerability related to Vodafone on 20th September 2023. Vodafone takes security issues extremely seriously and welcomes feedback from researchers in order to improve its products and services.

Thank you for your patience as we review the information provided. We appreciate how you have acted in accordance with recognised responsible disclosure practices. Proactive security research and ethical disclosure is an important part of our industry continuously improving.

Kind Regards,

Vodafone

reported devices are of our internet service providers , we will inform the team to work on it

olikar changed the status to ● Triaged. February 8, 2024, 9:22am UTC

Hi @allsafeeg_security_team

Thank you for bringing this vulnerability to our attention. Our teams will review and start working on it as soon as possible. While we cannot provide an exact timeframe, rest assured that we will notify you once it has been fixed.

Please note that the severity of the vulnerability may be subject to change as our internal investigation progresses. We will keep you informed of any updates when they become available.

Your patience is greatly appreciated.
Br,
olikar

olikar posted a comment. March 1, 2024, 2:02pm UTC

Hi @allsafeeg_security_team!

Thank you for reaching out. Our monthly internal committee will review your report for eligibility for a reward only if it is RESOLVED and falls under the category of HIGH/CRITICAL. If you do not receive any further communication from us, it means that your report did not meet the criteria for qualification.
